

WORKLAMPS

R10

EW5430 SERIES LED Driving Lamp

The ECCO EW5430 series offers an exciting alternative to traditional circular or rectangular shaped Driving Lamps (Main Beam). They offer all the typical advantages of LED lighting such as low current draw, long life and no maintenance, but also of particular interest to Driving Lamps, much whiter light (6,000 to 6,500K) which is more similar to daylight. Offered as optional extras are "plug and play" wiring harnesses including connectors, fuse, switch, relay and even a headlamp splice to make fitting much simpler and quicker. The connections to the lamp are also waterproof.

Models

PART NO.	VOLTAGE	LEDS	LUMENS	TYPE
EW5430	10-30	12	2400	1 Lamp + Deutsch Connector
EW5431	10-30	4	2500	1 Lamp + Deutsch Connector
EW5432	10-30	8	5000	1 Lamp + Deutsch Connector
EW5433	10-30	4	1400	1 Lamp + Deutsch Connector
