

FLASHLIGHTS FOR CONSTRUCTION WORKS

During construction and service works, there often occurs a need for an additional source of light. Illuminating a darkened spot, a hard-to-reach space or an entire room — an Armytek multi flashlight is up for any task.

Armytek multi flashlights are lightweight and powerful models with a headmount that allow freeing hands for professional and everyday tasks. For more than 10 years they have been chosen by construction and industrial workers, as well as auto mechanics around the world.

Multifunctional flashlights with a thought-out design and a carefully selected set of accessories are designed for use in various areas: construction, repairs, car maintenance, as well as active recreation, fishing and hunting.

Multifunctional flashlights with wide light

BRIGHT WIDE LIGHT

Elaborate optical system of Armytek flashlights provides bright output with an impressive throw for headlamps. The wide side spill allows highlighting a significant area around, which is especially convenient for performing tasks at a close distance. Soft stream of light without a distinct hotspot does not cause eye fatigue during prolonged operation.

RECORD RUNTIME

The flashlights work for up to 6.5 months in minimum brightness mode and more than 10 hours in comfortable medium brightness mode. Long-term use doesn't require an external power supply: record runtime is achieved on just one battery charge. Body without long wires, weak rubber connectors and unnecessary boxes is perfect for carrying on the head.

HEADMOUNT

Headmount in the set allows for hands-free operation. Soft elastic bands securely fix the flashlight to the head, do not rub the skin and leave no marks. The size of the mount is adjustable. The flashlight is easily installed, removed and 180° rotatable in the mount. There is no need to adjust the angle of light, the beam follows the direction of the eyes.

ADDITIONAL FIXATION OPTIONS

With the help of a powerful built-in magnet, the flashlight is installed on a metal surface in any position in just one motion, allowing for maximum area illumination. Steel clip provides the possibility of fixation to a pocket, belt, backpack strap and even a rope. Together with an AHM series hard hat mount, the multi flashlights can be used for construction and industrial works. The Pro version models come with a universal ABM-01 mount, which can be used to securely fix the flashlight to any tubular construction.

WATERPROOFNESS AND DURABILITY

The flashlight for construction should be as durable and reliable as possible. Armytek models are more than just rain- and splash-proof. They meet the international IP68 sealing standard and continue to work after an accidental submersion at a 10 meters depth. Exposure to dirt and dust does not affect the quality of the flashlight's operation. Body made from aircraft-grade aluminium or high-strength plastics withstands any mechanical impacts and fallings from 10 meters. Special matt anti-abrasive finish without rough knurling ensures secure grip even with wet hands.

MAGNETIC OR MICRO USB CHARGER

Thanks to the innovative technology, the magnetic charger of the Wizard flashlights is compatible not only with branded batteries, but also with batteries from other manufacturers. Batteries and drivers of the rechargeable flashlights are protected from accidental damage and the sealed body is dust- and liquid-proof. Magnetic or Micro USB connector remains impenetrable to water even without rubber cover. Magnetic charger or Micro USB cable (depending on the model except Crystal) is included in the set.

Legendary headlamp multi flashlights

Perfect solution for those in search of a powerful multifunctional flashlight for professional and daily use. Wizard models are distinguished by incredible brightness and wide side spill. Charged from any USB power source using a magnetic USB cable. Comfortable headmount, clip to attach to clothes or

backpack and universal ABM-01 mount (Pro versions except Wizard C1 Pro) are in the set. Powerful magnet in the tailcap for installation on any metal surface. Wizard flashlights are also compatible with AHM series hard hat mounts for construction works.

WIZARD C2 PRO MAX 4000 lm, 114 m

Multi flashlight with astonishing brightness up to 4000 lumens and wide beam angles 110°:150°. Larger capacity 21700 Li-Ion battery and 18650 battery adapter in the set.

WIZARD C2 PRO 2500 lm, 131 m

Updated version of the legendary Wizard Pro multi flashlight. Powerful professional model with maximum beam distance in the multi flashlight lineup.

WIZARD C2 PRO NICHIA 1600 lm, 113 m

Updated version with high CRI >90 and 4500K color temperature LED. Close to sunlight flashlight lighting with accurate color reproduction. Suitable for polishing or working with paint.

WIZARD C2 1200 lm, 108 m

Bright multi flashlight with wide beam angle and simple intuitive operation. Optimal brightness and beam distance for day-to-day tasks. An upgrade to Wizard – the first multi flashlight in Armytek history.

WIZARD C2 WR 1100/230 lm, 98/41 m

Model with impressive beam of red light up to 230 lumens and white light up to 1100 lumens for hunting, fishing and camping. Red light is suitable for preserving night vision when interchanging between turning the light on and off.

WIZARD C2 WUV 1100 lm/1.6 W, 98 m

Multi flashlight with powerful beam of UV light up to 1.6 W and white light up to 1100 lm. Ultraviolet light is for revealing house stains, detecting leaks, spotting fluorescent marks.

WIZARD C1 PRO 1000 lm, 100 m

Compact and lightweight model for even more comfortable carry in a pocket, hole for keyring or lanyard in the tailcap. Pro version features and compact size – best choice for everyone for whom the flashlight's dimensions are of decisive importance.

SPECIFICATIONS

	Light output	Throw	Runtime	LED	Battery	Charger
Wizard C2 Pro Max	4000 lm	114 m	2 months	XHP70.2	21700	Magnet USB
Wizard C2 Pro	2500 lm	131 m	6.5 months	XHP50.2	18650	Magnet USB
Wizard C2 Pro Nichia	1600 lm	113 m	6.5 months	NV4L144	18650	Magnet USB
Wizard C2	1200 lm	108 m	6.5 months	LH351D	18650	Magnet USB
Wizard C2 WR	1100/230 lm	98/41 m	2 months	2*XD16/2*XQE	18650	Magnet USB
Wizard C2 WUV	1100 lm/1.6 W	98 m	2 months	2*XD16/2*PQ2N-3FLE-AFC	18650	Magnet USB
Wizard C1 Pro	1000 lm	100 m	2 months	LH351D	18350	Magnet USB

► The models (except Wizard C2 Pro Nichia and Wizard C2 WUV) are available with White and Warm LED. Light output for flashlights with Warm light is about 7% less, beam distance is about 3% less. All the above specifications are test results based on ANSI/NEMA FL1-2009 Standard. The tests are performed using the battery included in the set. The data may vary due to environment, heat dissipation and other factors.

Multi flashlights with lamp mode and Micro USB charger

Multi flashlights with wide beam angle that are charged with any Micro USB cable (cable included). Due to lamp mode the flashlight can work without batteries directly from a Powerbank or any USB power supply. Several fixation options are ensured by the built-in

magnet in the tailcap, as well as a headmount and a clip in the set. The standard for Armytek multi flashlights body allows using the Elf models together with the AHM series hard hat mounts for industrial works or with the universal mount ABM-01.

ELF C2 1100 lm, 105 m

Combination of comfortable brightness, simple operation and record runtime up to 6.5 months for convenient everyday use both indoors and outdoors.

ELF C1 1000 lm, 103 m

Compact and lightweight Micro USB rechargeable multi flashlight with simple operation. Incredible for the given size brightness, throw and runtime. Hole for keyring or lanyard in the tailcap.

MICRO USB CHARGER

Water resistant
Micro USB socket even without rubber cover

BENEFITS OF WORKING WITH ARMYTEK

Armytek is a world famous manufacturer of high-tech flashlights, chargers and accessories. All Armytek products perfectly meet the buyer's requirements. We focus on quality and reliability: smart lineup allows us to thoroughly think through every detail before launching mass production.

HIGH PROFIT

Favorable conditions and flexible prices for bulk orders are ensured by own factories in China.

FAST SHIPPING

Warehouses around the world: the goods are always in stock and ready for shipment. Reduced costs and time of delivery, no additional custom fees required. Lower costs on shippings directly from the factories.

EXCEPTIONAL RELIABILITY

Minimum returns rate – less than 1% (competitors' rate is 5-7%). All products go through quality checking on test stands.

LEGENDARY SERVICE

Full support and cooperation: from placing an order to warranty service. Professional issue management, fast repairs and exchange.

NO HASSLE WARRANTY

Up to 10 years unprecedented warranty.

OWN FACTORIES

Every step of the process is controlled by our European specialists at the factories.

DEVELOPMENT

Head office in Europe. Team of highly qualified specialists from defence, aviation, space and other specialized industries.

EXPERIENCE

Expert in the fields of mechanics, optics and electronics. We specialize in development and manufacturing of flashlights and battery chargers since 2009.

COMPONENTS

Powerful Cree, Nichia and Samsung LEDs, electronics by the USA and Japan, aircraft-grade aluminium, tempered glass, etc.

SMART LINEUP

Simple process of choosing a product, no bulky catalogs with a lot of similar variants. Only best models for client's needs.

NEW PRODUCTS

Armytek produces innovative and the most technically advanced products in the world.

PRIVATE LABEL, OEM/ODM

Creating new products, modifying our production models and personalizing them according to your needs.

MARKETING SUPPORT

We provide all the necessary promotional materials: leaflets, booklets, catalogs, etc.

CLIENTS' NEEDS RESEARCH

We systematically gather feedback to make sure that our products completely fit clients' needs and requirements.

Built to exceed
