MULTI FLASHLIGHTS

Legendary flashlights, unique design – now even brighter and with additional red or ultraviolet light

1 HEADLAMP

Simple one-hand operation, reliable headmount. Solid body without long wires, weak rubber connectors and unnecessary boxes. The flashlight is easily installed, removed and 180° rotatable in the mount. Quick-release rubber ring provides additional fixation. Compatibility with AHM series hard hat mounts.

2 EVERY DAY CARRY LIGHT

Compact design, convenient side button, special matt anti-abrasive finish without rough knurling, strong built-in tail magnet and robust removable steel clip.

3 BICYCLE LIGHT

Body made from durable and lightweight aircraft-grade aluminium, improved shock resistance, new springs for better battery and driver protection. Constant light without flickering, compatibility with quick-release mount.

4 LAMP MODE (ELF C2, ELF C1)

Works without batteries directly from a Powerbank or any USB adapter.

5 KEYCHAIN LIGHT (WIZARD C1 PRO, ELF C1)

Compact and lightweight for even more comfortable carry in a pocket, hole for keyring or lanyard in the tailcap.

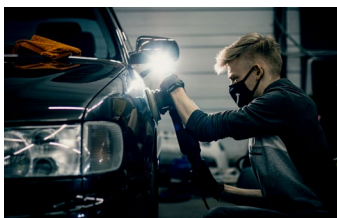

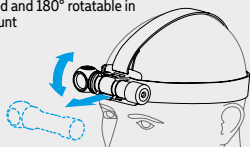

- **PRO MAX** Advantages of the Pro versions, new generation electronics and record light output of 4000 lumens
- **PRO** Powerful electronics provides impressive light output up to 2500 lumens and record 6.5 months in Firefly mode. Constant brightness even at low ambient temperatures and not fully charged battery

- **PRO** Multicolor temperature, battery level and state indication with the ability to turn it off
- **PRO** Simple operation by default and possibility to switch to advanced type
- **PRO** Universal bicycle mount ABM-01 in the set (except Wizard C1 Pro)
- Convenient wide beam of fully upgraded optical system, TIR-lense is protected from scratches by tempered glass with anti-reflective coating
- Innovative technology allows using any 21700, 18650 or 18350 Li-Ion batteries and provides full protection against short circuit
- Active real-time temperature control to prevent overheating above +58 °C
- Warning indication of low battery level
- Charges from any USB power source using the supplied magnetic or Micro USB cable
- Total protection from water, dirt and dust in accordance with IP68 standard – flashlight continues to work even at 10 meters depth. Withstands fallings from up to 10 meters

HEADLAMP

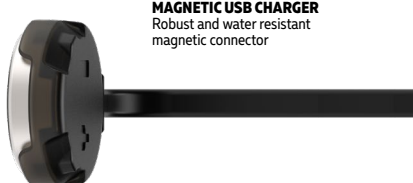

The flashlight is easily installed, removed and 180° rotatable in the mount

WIZARD

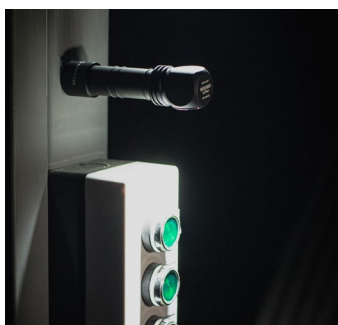

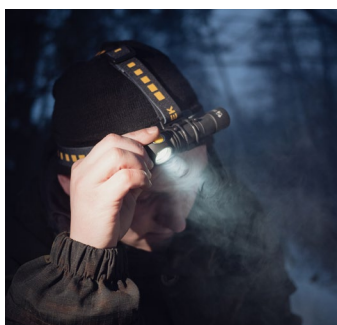

Perfect solution for those in search of a powerful multifunctional flashlight for professional and daily use. Wizard models are distinguished by incredible brightness and wide side spill. Charged from any USB

power source using magnetic USB cable. Comfortable headmount and steel clip to attach to clothes or backpack are in the set. Powerful magnet in the tailcap for installation on any metal surface.

MAGNETIC USB CHARGER

Robust and water resistant magnetic connector

WIZARD C2 PRO MAX 4000 lm, 114 m

3 in 1 Headlamp, Every Day Carry, Bicycle

White 6957713003009 F06701C

Warm 6957713003016 F06701W

Flagship product in multi flashlight lineup with astonishing brightness up to 4000 lumens and wide beam angles 110°:150°. Larger capacity 21700 Li-Ion battery and 18650 battery adapter in the set.

WIZARD C2 PRO 2500 lm, 131 m

3 in 1 Headlamp, Every Day Carry, Bicycle

White 6957713002613 F08701C

Warm 6957713002620 F08701W

Updated version of the legendary Wizard Pro multi flashlight. Powerful professional model with maximum beam distance in the multi flashlight lineup.

WIZARD C2 PRO NICHIA 1600 lm, 113 m

3 in 1 Headlamp, Every Day Carry, Bicycle

Warm 6957713003498 F06801W

Updated version with high CRI >90 and 4500K color temperature LED. Close to sunlight flashlight lighting with accurate color reproduction.

WIZARD C2 1200 lm, 108 m

3 in 1 Headlamp, Every Day Carry, Bicycle

White 6957713002590 F08901C

Warm 6957713002606 F08901W

Bright multi flashlight with wide beam angle and simple intuitive operation. Optimal brightness and beam distance for day-to-day tasks. An upgrade to Wizard – the first multi flashlight in Armytek history.

WIZARD C1 PRO 1000 lm, 100 m

4 in 1 Headlamp, Every Day Carry, Bicycle, Keychain

White	6957713002552	F09001C
-------	---------------	---------

Warm	6957713002569	F09001W
------	---------------	---------

Compact and lightweight model for even more comfortable carry in a pocket, hole for keyring or lanyard in the tailcap. Pro version features and compact size – best choice for everyone for whom the flashlight's dimensions are of decisive importance.

WIZARD C2 WR 1100/230 lm, 98/41 m

3 in 1 Headlamp, Every Day Carry, Bicycle

White + Red	6957713003610	F06901C
-------------	---------------	---------

Warm + Red	6957713003627	F06901W
------------	---------------	---------

Model with impressive beam of red light up to 230 lumens and white light up to 1100 lumens for hunting, fishing and camping. Red light is comfortable for night vision, almost invisible for animals, fish and insects.

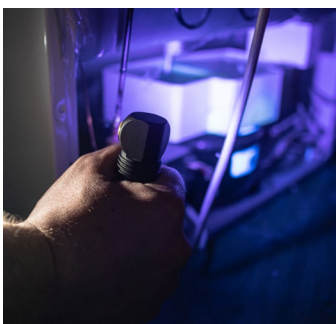

WIZARD C2 WUV 1100 lm/1.6 W, 98 m

3 in 1 Headlamp, Every Day Carry, Bicycle

White + UV	6957713003702	F08901UF
------------	---------------	----------

Multi flashlight with powerful beam of UV light up to 1.6 W and white light up to 1100 lm. Ultraviolet light is for revealing house stains, detecting leaks, spotting fluorescent marks, finding minerals, performing forensic investigations, verification of currency and passports authenticity.

ELF

Multi flashlights with wide beam angle that are charged with any Micro USB cable (cable included). Due to lamp mode the flashlight can work without batteries directly from any USB adapter or Power-bank. Several fixation options thanks to magnet in the tailcap, headmount and clip in the set.

ELF C2 1100 lm, 105 m

4 in 1 Headlamp, Every Day Carry, Bicycle, Lamp

White	6957713002651	F05102C
Warm	6957713002668	F05102W

Combination of comfortable brightness, simple operation and record runtime up to 6.5 months for convenient everyday use both indoors and outdoors.

ELF C1 1000 lm, 103 m

5 in 1 Headlamp, Every Day Carry, Bicycle, Lamp, Keychain

White	6957713002637	F05002C
Warm	6957713002644	F05002W

Compact and lightweight Micro USB rechargeable multi flashlight with simple operation. Incredible for the given size brightness, throw and runtime. Hole for keyring or lanyard in the tailcap.

ACCESSORIES FOR MULTI FLASHLIGHTS

BIKEMOUNT

ABM-01 6957713002880 A04301

Quick-release bike mount ABM-01 is compatible with Wizard and Elf series flashlights. Made from robust and lightweight materials. Easily attached to a bicycle handlebar. Strongly holds a flashlight in place even during cycling on bumpy roads.

HARD HAT MOUNTS

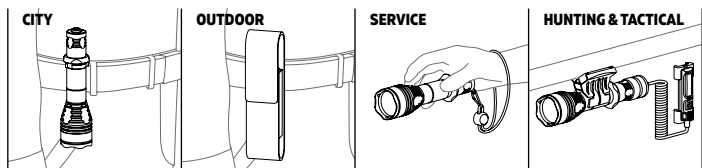

AHM-02 6957713002408 A02501
AHM-03 6957713002996 A04801

Armytek hard hat mounts are compatible with Wizard and Elf series flashlights. Easy-to-install mounts are securely attached with just one motion. The series includes universal AHM-02 model and AHM-03 model for Petz hard hats.

TACTICAL FLASHLIGHTS

Popular classic models and new versions with magnetic charger

- **PRO MAX** Advantages of the Pro versions, new generation electronics for even brighter light output. Additional side button for comfortable one-hand mode changing. 21700 Li-Ion battery in the set
- **PRO** Powerful electronics provides constant brightness even at a temperature of -40°C and not fully charged battery
- **PRO** Two-phase electronic button retained two levels of pressing similar to mechanical switch, but became noiseless and 20 times more durable
- **PRO** Hunting and tactical operation for quick access to the required modes
- **PRO** Charges from any USB power source using the supplied magnetic USB cable
- Non-flat button allows to easily switch the flashlight with a palm
- Withstands any recoil due to improved springs and installation of the driver inside a reinforced capsule filled with protective compound
- Special precisely calculated reflector for High Intensity LED modification, which provides 1.5 times the light range compared to a usual LED, tempered glass with anti-reflective coating for maximum throw distance
- Standard 1 inch body is compatible with any accessories, including original remote switches and magnetic weapon mount for quick one-motion attachment and removal
- Innovative technology allows using any 21700 or 18650 Li-Ion batteries and provides full protection against short circuit
- Solid body made from aircraft-grade aluminium, special matt anti-abrasive finish without rough knurling
- Active real-time temperature control to prevent overheating and warning indication of low battery level
- Total protection from water, dirt and dust in accordance with IP68 standard – flashlight continues to work even at 25 meters depth up to 5 hours. Withstands fallings from the 10th floor

MAGNETIC USB CHARGER IN PRO AND PRO MAX MODELS

Robust and water resistant magnetic connector

PREDATOR

DOBERMANN

2 in 1 flashlights with narrow beam of light and smoother transition between hotspot and spill. Optimal both for tactical and day-to-day application. Suitable for application at medium distances. Compact body with standard 1 inch diameter allows the use of additional accessories: weapon mounts and remote switches. Convenient holster, steel clip and lanyard for every day carry are in the set.

SEARCHLIGHTS

Long-throw flashlights powered by two 18650 Li-Ion batteries for prolonged application

BARRACUDA

BARRACUDA PRO 1500 lm, 800 m

2 in 1	Tactical, Every Day Carry	
White	6957713001746	F03203SC
Warm	6957713001753	F03203SW

The most efficient, powerful and long-throw models for special tasks. Powerful electronics provides light output of 1500 lm with beam distance up to 800 m. The flashlights are compatible

BARRACUDA 1150 lm, 775 m

2 in 1	Tactical, Every Day Carry	
White	6957713001760	F03302SC
Warm	6957713001777	F03302SW

with original remote switches and weapon mounts and can be used as tactical lights. Indispensable for search operations on land and in water, diving and underwater hunting.

1 SEARCHLIGHT

Large and deep 64 mm diameter reflector for maximum throw distance, longer runtime due to 2 batteries in prolonged body, practical plastic case.

2 TACTICAL LIGHT

Withstands any recoil due to improved springs and installation of the driver inside a reinforced capsule filled with protective compound. Standard 1 inch body is compatible with any accessories, including original remote switches and magnetic weapon mount for quick one-motion attachment and removal.

- **PRO** Powerful electronics provides constant brightness even at a temperature of -40 °C and not fully charged battery
- **PRO** Additional compact body 1 x 18650 for more convenient application
- Special precisely calculated reflector for High Intensity LED modification,

which provides 1.5 times the light range compared to a usual LED, tempered glass with anti-reflective coating for maximum throw distance

- Non-flat button allows to easily switch the flashlight with a palm
- Innovative technology allows using any 18650 Li-Ion batteries and provides full protection against short circuit
- Solid body made from aircraft-grade aluminium, special matt anti-abrasive finish without rough knurling
- Active real-time temperature control to prevent overheating and warning indication of low battery level
- Total protection from water, dirt and dust in accordance with IP68 standard – flashlight continues to work even at 25 meters depth up to 5 hours. Withstands fallings from the 10th floor

ACCESSORIES FOR TACTICAL FLASHLIGHTS

WEAPON MOUNTS

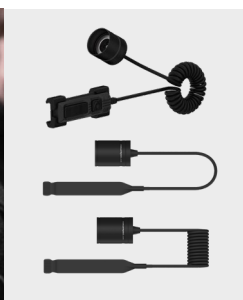

AWM-01 and AWM-02 – universal weapon mounts for fixing the flashlight on weapons of various types. Side mounting, top mounting, and mounting on a double-barreled shotgun are possible.

AWM-03 – magnetic weapon mount compatible with 8-30 mm diameter weapons. Provides reliable fixation of a flashlight on a gun with easy one-motion attachment and removal. Lightweight and

made from robust materials. Holds up to 8 kg due to extra strong dual magnets.

GM series – mounts that are installed on Weaver or Picatinny rail (depending on the model) and universal models with several attachment options.

AWM-01	6957713003795	A00901
AWM-02	6957713003801	A00902
AWM-03	6957713003818	A01301

REMOTE SWITCHES

MRS-01 – unique magnetic remote switch for momentary on (only when the button is pressed) and for constant light. Easy one-motion connection, no need to unscrew the tailcap. For Armytek tactical flashlights with magnetic charger.

ARS-01 – models with straight or coil

cord for momentary on (only when the button is pressed). Compatible with all Armytek flashlights with tactical button.

MRS-01	6957713000886	A00802
ARS-01	6957713000879	A00801
ARS-01 Coil cord	6957713000879	A00801

FILTERS

Blue, red, green and white filters are used with tactical flashlight to broaden the flashlights' functionality. Blue light is for working with maps and night vision devices. Red light is invisible for animals.

Green light is for hunting in woodland areas, not perceived by animals as a threat. White filter transforms narrow beam into smoother wider output for performing tasks at close range.

White 6957713003634 F07802C

Warm 6957713003641 F07802W

EDC models suitable for tactical use. A universal assistant at home, on a hike or on a fishing trip, Partner can replace a larger tactical model when hunting. The flashlights are compatible with weapon mounts and sure to withstand weapon recoil.

1 EVERY DAY CARRY LIGHT

Compact design, convenient side button, special matt anti-abrasive finish without rough knurling. Durable nylon holster, strong built-in tail magnet, robust removable steel clip and lanyard.

2 TACTICAL LIGHT

Withstands any recoil due to improved springs. Compatible with any accessories, including original magnetic remote switch and magnetic weapon mount for quick one-motion attachment and removal.

3 BICYCLE LIGHT

Body made from durable and lightweight aircraft-grade aluminium, improved shock resistance, new springs for better battery and driver protection. Constant light without flickering, optional quick-release mount.

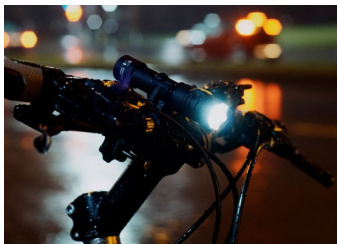

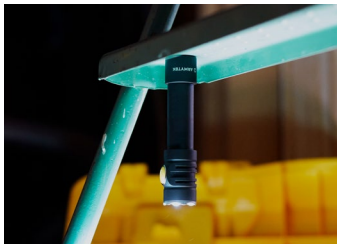

- **PRO** Powerful electronics provides constant brightness even at a temperature of -40°C and not fully charged battery. 21700 Li-Ion battery in the set
- Additional side button for comfortable one-hand mode changing

- Special precisely calculated reflector for High Intensity LED modification, which provides 1.5 times the light range compared to a usual LED, tempered glass with anti-reflective coating for maximum throw distance
- Two-phase electronic button retained two levels of pressing similar to mechanical switch, but became noiseless and 20 times more durable
- Flat button allows avoiding accidental activation of the flashlight in a pocket and provides the possibility of tail-stand
- Innovative technology allows using any 21700 or 18650 Li-Ion batteries and provides full protection against short circuit even in case of contact between magnetic connector and metal objects
- Active real-time temperature control to prevent overheating above $+58^{\circ}\text{C}$
- Warning indication of low battery level
- Charges from any USB power source using the supplied magnetic USB cable
- Total protection from water, dirt and dust in accordance with IP68 standard – flashlight continues to work even at 25 meters depth up to 5 hours. Withstands fallings from the 10th floor

Classic every day carry flashlights. Universal models with durable body and convenient side button are suitable for solving any tasks, both at home and at work. They can be used on a walk, on a hike or simply as a light source to go down to the basement. Prime EDC lights are bike mount compatible, which means they can become a great alternative to bicycle lights.

1 EVERY DAY CARRY LIGHT

Compact design, convenient side button, special matt anti-abrasive finish without rough knurling. Durable nylon holster, strong built-in tail magnet and robust removable steel clip.

2 BICYCLE LIGHT

Body made from durable and lightweight aircraft-grade aluminium, improved shock resistance, new springs for better battery and driver protection. Constant light without flickering, optional quick-release mount.

3 KEYCHAIN LIGHT (PRIME C1)

Compact and lightweight for even more comfortable carry in a pocket, hole for keyring or lanyard in the tailcap.

- **PRO** Powerful electronics provides impressive light output up to 2400 lumens and record 6.5 months in Firefly mode. Constant brightness even at low ambient temperatures and not fully charged battery
- **PRO** Multicolor temperature, battery level and state indication with the ability to turn it off
- **PRO** Simple operation by default and possibility to switch to professional advanced type
- Convenient wide beam of fully upgraded optical system, TIR-lense is protected from scratches by tempered glass with anti-reflective coating
- Innovative technology allows using any 18650 or 18350 Li-Ion batteries and provides full protection against short circuit even in case of contact between magnetic connector and metal objects
- Active real-time temperature control to prevent overheating above +58 °C
- Warning indication of low battery level
- Charges from any USB power source using the supplied magnetic USB cable
- Total protection from water, dirt and dust in accordance with IP68 standard – flashlight continues to work even at 10 meters depth. Withstands fallings from up to 10 meters

COMPACT MULTI FLASHLIGHTS

Multiple times brighter than analogs, broad variants of use

CRYSTAL

1 HEADLAMP

Soft elastic headband. Specially designed body with thought-out optical elements provides comfortable beam angle with minimum loss of light for use at a close distance.

2 EVERY DAY CARRY LIGHT

Lightweight and compact body made from durable plastics. Possibility to attach to bag, pocket, strap or cap using a clip.

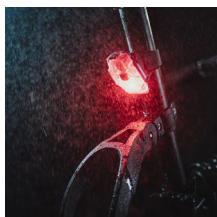

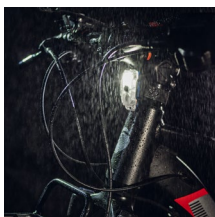

3 KEYCHAIN LIGHT

Ring for keys made from durable materials.

4 LAMP MODE

Works directly from a Powerbank or any USB adapter.

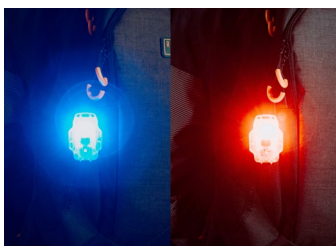

5 BICYCLE LIGHT

Secure silicone rings or bicycle mount (Crystal Pro) for installation on a bicycle. Constant white light and white Beacon to use as headlight or running light. Constant red light and red Beacon for rear light (Crystal, Crystal Pro).

6 BICYCLE BRAKE LIGHT (CRYSTAL PRO)

3 red LEDs and built-in 3D accelerometer. Highly sensitive sensors detect bicycle deceleration, after which additional red LEDs turn on and the brightness of the flashlight increases to 43 lm.

7 WARNING LIGHT (CRYSTAL WRB)

Red-blue Beacon, fully luminous body, steel clip to attach to clothes or belt.

MICRO USB CHARGER

Water resistant Micro USB socket even without rubber cover

5 COLORS TO CHOOSE FROM: Red Ruby, Yellow Amber, Green Jade, Blue Sapphire, Grey Onyx

- Convenient operation with one button, double click to change the light color
- Unique fully luminous body and several shell color options to choose from
- Built-in Li-Pol 600 mAh battery charges with any Micro USB cable
- Color indication of charging process
- IP67 standard: reliable protection from dust and submersion at 1 meter for 30 minutes. Withstands fallings from up to 10 meters

ZIPPY EXTENDED SET

Multi flashlight with unique 3 in 1 mount for daily application, carrying out works or on a camping trip. Ultrastrong ring allows carrying the flashlight along with the keys. Removable clip is securely attached to clothes or belt. 360° rotatable headmount and a plastic clip for cap provide the possibility of headlamp use. Strong magnet in the mount securely holds the flashlight on metal surfaces.

ZIPPY EXTENDED SET WR

Multi flashlight 4 in 1 – version of Zippy ES with white and red light. Superbright for the given flashlight size red light is comfortable for night vision when carrying out works or on a camping trip. It is almost invisible for fish, which makes Zippy ES WR a great additional source of light on a fishing trip.

CREATE YOUR OWN PRODUCT: FROM IDEA TO MANUFACTURING

OEM – we modify our models according to your needs and personalize them with your logo, customized package and set of accessories. Our products can be applied for internal use in your organization or used as corporate gifts.

1

INQUIRY

Tell us your requirements. We will choose the model that fits your needs best and modify it according to your technical task.

2

SAMPLING

You approve design files. We produce a test sample at our own factory and send it to you.

3

MANUFACTURING

Once we receive final acceptance from you, the manufacturing process is launched.

ODM – we create new product from the start, modify our production model or use your design with your trademark. You get original private label goods that fit your needs.

1

INQUIRY

We discuss your ideas and offer ours to get a better understanding of what you need.

2

TECHNICAL TASK

Together we make up a list of technical characteristics and obligatory requirements.

3

DEVELOPMENT / PROTOTYPING

Our specialists develop a prototype according to your technical task.

4

SAMPLING

You approve design files. We produce a test sample at our own factory and send it to you.

5

MANUFACTURING

Once we receive final acceptance from you, the manufacturing process is launched.

ACCEPTATION WITH CLIENTS AND CONTROL AT ALL STAGES.

BENEFITS OF WORKING WITH ARMYTEK

Armytek is a world famous manufacturer of high-tech flashlights, chargers and accessories. All Armytek products perfectly meet the buyer's requirements. We focus on quality and reliability: smart lineup allows us to thoroughly think through every detail before launching mass production.

HIGH PROFIT

Favorable conditions and flexible prices for bulk orders are ensured by our own factories in China.

FAST SHIPPING

Warehouses around the world: the goods are always in stock and ready for shipment. Reduced costs and time of delivery, no additional custom fees required. Lower costs on shippings directly from the factories.

EXCEPTIONAL RELIABILITY

Minimum returns rate – less than 1% (competitors' rate is 5-7%). All products go through quality checking on test stands.

LEGENDARY SERVICE

Full support and cooperation: from placing an order to warranty service. Professional issue management, fast repairs and exchange.

NO HASSLE WARRANTY

Up to 10 years unprecedented warranty.

OWN FACTORIES

Every step of the process is controlled by our European specialists at the factories.

DEVELOPMENT

Head office in Europe. Team of highly qualified specialists from defence, aviation, space and other specialized industries.

EXPERIENCE

Expert in the fields of mechanics, optics and electronics. We specialize in development and manufacturing of flashlights and battery chargers since 2009.

COMPONENTS

Powerful Cree, Nichia and Samsung LEDs, electronics by the USA and Japan, aircraft-grade aluminium, tempered glass, etc.

SMART LINEUP

Simple process of choosing a product, no bulky catalogs with a lot of similar variants. Only best models for client's needs.

NEW PRODUCTS

Armytek produces innovative and the most technically advanced products in the world.

PRIVATE LABEL (OEM/ODM)

Creating new products, modifying our production models and personalizing them according to your needs.

MARKETING SUPPORT

We provide all the necessary promotional materials: leaflets, booklets, catalogs, etc.

CLIENTS' NEEDS RESEARCH

We systematically gather feedback and improve our products to completely fit clients' needs and requirements.
